- Mixed Use
- Residential

**Disposal Type Admin Fee:**

- Self-Haul- \$255
- Franchise Hauler- \$65
- Combination- \$255

Please read and sign below to signify you understand this information.

1. Pursuant to Chapter 12 Article 8 of the Cypress Municipal Code, a security deposit amount of no less than \$1,000 was paid on \_\_\_\_\_ to the City to guarantee compliance with the 2016 California Green Building Code construction debris diversion requirements.
2. You have been provided with the “Contractor’s Guide to the Construction and Demolition Debris Materials Questionnaire”, a step-by-step manual on how to successfully complete the reporting process.
3. **Failure to comply will result in forfeiture of entire deposit amount.** Construction debris sent to a processing facility as mixed solid waste is classified as trash and does not meet the recycling or reuse requirement.
4. **New Construction or Non-Residential:** Prior to any inspections, a waste management plan and materials questionnaire must be completed and submitted via [www.cypress.wastetracking.com](http://www.cypress.wastetracking.com) for City approval. Contact the City’s solid waste program coordinator with any questions at 714-229-6748.
5. The City’s franchised trash and recycling hauler is Valley Vista Services. Pursuant to Chapter 12 Article 8 of the Cypress Municipal Code, using the waste hauling services of a non-permitted or non-franchised hauler will result in automatic forfeiture of deposit amount.
6. To rent temporary construction bins, call Valley Vista Services at 714-380-5450. You must notify Valley Vista that you have construction waste that needs to be recycled.
7. Before your final building inspection, submit the completed waste management report (including evidence\* the construction debris was recycled or reused) via [www.cypress.wastetracking.com](http://www.cypress.wastetracking.com) for City approval.
