ORAL COMMUNICATIONS (Limited to 30 minutes – three minutes per speaker, unless extended by the City Council)

None.

WORKSHOP SESSION

The City Attorney stated that the City Council would be presented with a workshop on Proposition 64, the regulation of marijuana. He introduced Chris Neumeyer, Aleshire & Wynder, who would lead the workshop.

Mr. Neumeyer spoke of his marijuana law expertise, Proposition 64, and the California Medical Marijuana Regulation and Safety Act. He stated that cities need to be proactive on whether or not they want to ban or regulate its use. He provided a brief history of marijuana laws and stated that in 2018 medical marijuana businesses would be allowed to obtain State licenses. He commented that in the 2016 Gallop Poll shows that 60 percent of Americans support legalization of marijuana. He stated that in 2016 the California Adult Use of Marijuana Action (Proposition 64) was passed which allowed possession of one ounce of marijuana that could be transported, used, and up to six plants grown at a person's private property.

Mr. Neumeyer stated that in January 2018 California would begin issuing state licenses for medical marijuana and recreational commercial for-profit businesses. He indicated that Proposition 215 allows recreational commercial businesses, and the California Medical Marijuana Regulation and Safety Act of 2015 allows medical dispensaries to be for-profit. He stated that when the State issues local control, cities can ban all of the businesses.

Mr. Neumeyer stated that personal marijuana cultivation allows California residents to cultivate up to six living marijuana plants within a single private residence, indoor or outdoor. He stated that cities may completely ban outdoor growing and regulate indoor growing, and that Proposition 64 allows for reasonable regulations. He spoke of cities that have been sued, and indicated that Cypress currently bans marijuana cultivation in all zones and allows up to six indoor plants without regulation. He stated that Cypress'

options may include to continue the ban on outdoor cultivation, to allow outdoor growing, establish regulations such as landlord consent, or restrict the number of plants.

Council Member Berry commented that the City cannot alter the State allowance for residential cultivation up to six living marijuana plants within a single private residence.

Mr. Neumeyer responded in the affirmative, and clarified that State law preempts local control over growing marijuana plants indoors.

Council Member Berry commented that the plant size could vary.

Mr. Neumeyer responded in the affirmative, and commented that plant size could vary substantially.

Mayor Pro Tem Peat asked if the personal cultivation would be for personal consumption only and not for sale.

Mr. Neumeyer responded in the affirmative, and clarified that the marijuana could be given away without compensation. He stated that a State license would be needed if it was to be sold.

Council Member Johnson asked if the marijuana could be bartered.

Mr. Neumeyer responded that bartering would be considered compensation.

Mr. Neumeyer stated that beginning in 2018, State commercial marijuana licenses would be issued for retail sales, dispensaries, cultivation, manufacturing, and distribution. He indicated that there would be 19 license types for recreational marijuana operations and 17 license types for medical marijuana. He stated that the operations would be illegal without a State license.

Mr. Neumeyer spoke regarding local control and stated that recreational marijuana commercial operations could be banned and controlled by cities as long as the city code expressly bans them. He stated that the State license is not effective if a City does not allow medical marijuana. He suggested that all license types be addressed in the city code.

Mr. Neumeyer spoke regarding the current city code and that it should be updated to address Proposition 64. He stated that marijuana cultivation, dispensaries, and processing is prohibited in all zones. He stated that the city code does not ban each license type and that code revisions are recommended for manufacturing, deliveries, testing, regulation of personal indoor cultivation, and specific State license types for recreational and medical commercial marijuana operations.

Council Member Yarc asked about medical marijuana deliveries.

Mr. Neumeyer stated that marijuana could be delivered if it is not banned and in 2018, deliveries would be done through a licensed dispensary.

Council Member Yarc asked for further clarification.

Mr. Neumeyer responded that current deliveries into the City are not clearly banned by the city code.

The City Attorney asked about the distinction between medical marijuana deliveries and recreational marijuana deliveries.

Mr. Neumeyer stated that cities could allow only medical, only recreational, or both or neither.

Mayor Pro Tem Peat asked if the City banned all types of deliveries, a medical marijuana patient would have to physically pick-up the marijuana.

Mr. Neumeyer responded in the affirmative.

Mr. Neumeyer stated that city code amendments to consider should include indoor personal marijuana cultivation, deliveries, testing, manufacturing, expressly addressing the difference license types, and an amendment to expressly address Proposition 64 concerns. He stated that currently all medical marijuana uses are in the zoning code and suggested that it be addressed.

The City Attorney discussed the next steps in the process and indicated that the revised ordinance would require two readings.

Council Member Yarc asked about tax benefits.

Mr. Neumeyer responded that there would be a 15 percent excise tax on all marijuana sales and that a small amount would come back to cities that do not ban marijuana cultivation and retail sales. He spoke regarding some cities that have passed local marijuana gross receipts taxes and that a sales percentage could be imposed, as well as a tax on cultivation of approximately \$15 to \$25 per square foot.

Council Member Yarc asked if the State would get any of that tax.

Mr. Neumeyer responded no, and clarified that it would be subject to Proposition 218 requirements and go to local voters specific to special and general tax.

Council Member Johnson asked if the ordinance would be done by a vote of the residents.

Mr. Neumeyer responded that the ordinance would be done by City Council action.

The City Attorney stated that the safest legal course of action would be to not charge any of the indoor inspection fees.

Council Member Johnson asked if a study has been done to determine costs to cities.

Mr. Neumeyer indicated that the private consulting firm of HDL has done work with cities.

Mayor Pro Tem Peat asked if regulations would assist the Police Department.

The Chief of Police stated that regulations would provide enforcement and that he would provide a list of suggested regulations to the City Council.

Mayor Morales asked if suggested verbiage for the ordinance has been determined.

The City Attorney responded in the affirmative.

Mayor Morales spoke regarding possible future ordinance amendments and asked about enforcement.

Mr. Neumeyer commented that the City would likely pursue enforcement, as the District Attorney's Office provides only minimal assistance with city enforcement. He stated that under new laws, cities could petition the State to obtain some of the State enforcement powers including the ability to recoup fees and penalties.

Council Member Yarc spoke in opposition of indoor dispensaries and selling, and asked about the benefit of changing the indoor cultivation allowance.

Mayor Pro Tem Peat asked if there would be ordinance regulations that would assist the Police Department with enforcement.

The City Attorney suggested that the ordinance include reasonable code enforcement for odor control. He stated that specific license types be addressed in order to be consistent with the current ban.

Mayor Morales asked about the ordinance timeline and the next course of action.

The City Manager stated that the City Attorney is working with the Police Department and Code Enforcement, and that the first reading of the proposed ordinance would be brought to the City Council in August or September.

Council Member Yarc asked if there are alternate marijuana industry revenues for the City.

The City Manager spoke regarding controlled marijuana industry licenses and stated that each could be reviewed for the City Council. He commented that the marijuana law is evolving and in an unsettled state.

Mayor Morales spoke regarding the ordinance review process.

Council Member Berry commented that each type of license needs to be addressed in the ordinance.

Council Member Johnson spoke in opposition of allowances.

Council Member Yarc asked about Police Department enforcement restrictions.

The City Attorney stated that police situations vary and that they would only have authorization to take action on what the court allows or circumstances to search.

Council Member Yarc asked about medical marijuana identification cards.

Mr. Neumeyer responded that State law requires counties to issue medical marijuana cards.
